

# RHODE ISLAND

Nurse-Family Partnership® is an evidence-based, community health program with over 40 years of evidence showing significant improvements in the health and lives of first-time moms and their children living in poverty.

**5x**  
**\$ RETURN**  
EVERY \$1 INVESTED IN NFP SAVES \$5.70 IN FUTURE COSTS FOR THE HIGHEST-RISK FAMILIES SERVED <sup>1</sup>

Nurse-Family Partnership works by having specially trained nurses regularly visit young, first-time moms-to-be, starting early in the pregnancy, continuing through the child's second birthday. Mothers, babies, families and communities all benefit.

## RHODE ISLAND MOMS

**20**  
Median age

**89%**  
Unmarried

**98%**  
Clients who used Medicaid while in NFP

**\$3,000**  
Annual household income (median)

\*Medicaid data provided by NSO, includes cumulative data for the state up to 9/2018

\*Aggregate data provided by NSO, includes cumulative data for the state up to 11/2018

**Race**  
28% White

1% American Indian or Alaska Native

**Ethnicity**  
42% Non-Hispanic  
56% Hispanic  
3% Declined

## POSITIVE OUTCOMES FOR RHODE ISLAND

\*Aggregate data provided by NSO, includes cumulative state data for Rhode Island up to 11/2018; Employment data up to 9/2018.

**90%** BABIES BORN AT A HEALTHY WEIGHT (5.5 LB ≥)

**90%** BABIES BORN FULL TERM

**90%** MOTHERS INITIATED BREASTFEEDING

**96%** BABIES RECEIVED ALL IMMUNIZATIONS BY 24 MONTHS

**60%** OF CLIENTS 18+ WERE EMPLOYED AT 24 MONTHS

# RHODE ISLAND

## Nurse-Family Partnership Goals

1. Improve pregnancy outcomes by helping women engage in good preventive health practices.
2. Improve child health and development by helping parents provide responsible and competent care; and
3. Improve the economic self-sufficiency of the family by helping parents develop a vision for their own future.

## Proven Results

The Nurse-Family Partnership program has been independently reviewed and evaluated, and is ranked as the Gold Standard of home visiting programs. A report from the Center on the Developing Child at Harvard University shows the extent to which very early childhood experiences influence later learning, behavior and health.
